

Clean Water State Revolving Fund (CWSRF)
Green Project Reserve Eligibility Determination

Name of System
CWSRF Project Number/Loan Number

The Jay Utilities Authority
ORF-23-0173-CW

General Project Description:

The Jay Utilities Authority (Authority) supplies water and gas to their customers. Their current metering system is a drive-by automatic meter reading (AMR) end-point system, that reads both the water and gas meters. The meters are currently beyond their life expectancy and are experiencing failures. The Authority is updating the metering system to an advanced metering infrastructure (AMI) system, which will allow users portal access to monitor usage, recognize potential leaks, and encourage conservative consumption practices. The proposed project is to replace 1,166 water meters and 616 gas meters with AMI meters, and all appurtenances required to complete the project.

GPR Component Description:

Item	Category*
AMR/ AMI Installation to improve efficiency	Water Efficiency
	None
	None

Approved GPR Amount:	<u>\$ 1,369,000.00</u>
Approved Subsidy Amount (if applicable)	<u>\$ 1,369,000.00</u>
